### Science Newsblast: June 13, 2024

Hello Corinn,

#### In this Issue:

- [Science Teaching Tools](#)
- [A's Teacher Appreciation Game](#)
- [July is Teacher Appreciation Month at the Tech Interactive](#)

#### CRS Quick Links:

- [Professional Development](#)
- [Science Education Grants](#)
- [Previous Science NewsBlasts?](#)
- Looking for program information, lesson resources, or something else to enliven your science teaching? [Make a Request!](#)

---

Summer break is here! We hope that you find rest and rejuvenation during this time. We know that a lot of you also use this time to do some planning for the coming year. If that is you, here are some resources on our website that can help you.

Our [Science Teaching Tools](#) page is a great place to start (bookmark it for future use). It has the following resources and more...

- [Science Sketching and Notebooking](#) is great for starting out the school year and establishing norms of close observation and writing in science. Edutopia recently published an article about [The Benefits of Nature Journaling](#). You can also view this [short video](#) from the Watershed Project about how to sketch from nature.
- [K-5 Science Literature Resources](#) - The list is intended to assist teachers in selecting a few quality, well-reviewed, age-appropriate books for a given science topic
- [Environmental and Climate Literacy Resources](#) - We have curated these resources into categories like scientific background info, lessons/units, student action projects, and more.

- [Field Trips, In-class, and assembly programs sorted by grade level and strand](#) .
- The [Professional Development Calendar](#) provides information about upcoming workshops (in-person and virtual) that you can participate in to build science education content and skills.
  - The American Museum of Natural History has [online courses](#) beginning July 8
  - Check out the Tech Interactive [Open House](#) on July 25.
- Our [Grants](#) page will help you find funding for field trips and science project supplies.

**CRS is here all summer, so reach out!** We love to help teachers plan for a science-strong start to the new year! Just reach out with your science planning questions! We love to hear from awesome teachers throughout the summer! You can email us at [crs@crscience.org](mailto:crs@crscience.org) or fill out our [request form](#).

## Teacher Appreciation Day with the A's

Bay Area teachers can register to receive a maximum of two (2) complimentary tickets, courtesy of the A's, for **Teacher Appreciation Day on Thursday, June 20, 12:37 p.m.** game versus the Kansas City Royals.

[Get Your Tickets](#)

## July is Teacher Appreciation Month at the Tech Interactive

Every Tuesday in July, educators can enjoy free admission to The Tech Interactive (including free admission for one guest).

You're also invited to attend their Educator Open House, on Thursday, July 25. Here's what's in store for you on this special day:

- Free admission (up to three guests) to The Interactive for the day
- Drop-in demos of the Science Labs and The Tech Challenge
- Resource fair from educational partners all around the Bay Area

[Find out more!](#)

Sincerely,

Corinn and Everyone at CRS
